

Do I need a FLU VACCINATION?

Good question!
Here's a simple chart to help you decide.

ARE YOU HUMAN?

Yes

No →

Whether you're a house plant, chair, or cell phone, congrats on being able to read. Very impressive!

ARE YOU OVER 6 MONTHS OF AGE?

Yes

No →

It's too early for you, little one! Enjoy those naps; You'll miss them some day.

ARE YOU FEELING ILL TODAY?

Yes

No

Your doctor will probably still recommend you get a flu shot, even if you have a mild fever!

DO YOU EVER LEAVE HOME?

Yes

No →

You should get out more. Your flu risk may be lower, but is it worth it?

DID YOU ENJOY READING THIS?

Doesn't matter.

You still need a flu vaccination!

200,000

Americans are hospitalized from flu complications each year.
-CDC

As high as

49,000

annual U.S. flu-related deaths.
-CDC
