Re-Cap

Storage & Handling

Other Updates

Arizona Goes 16+: Remember - Pfizer only for 16+; Moderna and J&J for 18+

Continued Supply Challenges: Expect more vaccine in coming weeks; Some counties still trying to prioritize frontline essential workers with private events

Pfizer Storage & Handling : 2 weeks at standard freezer temps

Keep County in the Loop! As you plan community events, let your county know your plans so they don't plan events in the same neighborhoods targeting the same groups
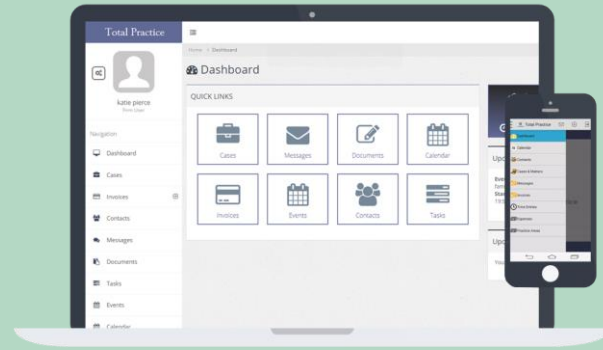

Open Forum

No questions are off-limits!

Poll: Who have you billed for COVID-19 vaccine so far?

GOVERNOR DOUGLAS A. DUCEY

STATE OF ARIZONA
★
EXECUTIVE ORDER

Executive Order 2020-57

COVID-19 Vaccine Admin Fee Change:

$40 per dose as of 03/15/2021

- **AZ Open networks:** In-network reimbursement for **flu and covid-19** vaccine administration from most health plans by Executive Order. A contract is not needed with AZ commercial health plans for reimbursement. This means you can bill for patients outside of your typical panel.

- **Medicare Part B Roster Billing**: Collect the Medicare or SS# and not the Advantage Plan number to submit claims. Register as mass immunizer

- **Medicaid**: AHCCCS will reimburse any qualified provider including non-Medicaid providers. Must register with AHCCCS & check FAQs for Policy

- **Uninsured:** HRSA will reimburse uninsured admin fee to registered providers Optum Enrollment

- **No Patient Out-of-Pocket:** Do not balance bill patients or charge a cash fee. Submit to private plan, AHCCCS, Medicare or Optum

- **Vaccine billing guide**: Download the AZ COVID-19 Vaccine Overview Link

CARES Act Provider Relief Fund:

Providers may seek appropriate reimbursement from a program or plan that covers COVID-19 Vaccine administration fees for the vaccine recipient such as:

- vaccine recipient's private insurance company
- Medicare or Medicaid reimbursement
- HRSA COVID-19 Uninsured Program for non-insured vaccine recipients

May not seek any reimbursement, including through balance billing, from the vaccine recipient. (regardless of insurance status, cannot charge patients for the administration of COVID-19 vaccine).

May not charge an office visit or other fee if COVID-19 vaccination is the sole medical service provided

May not require patients seek additional medical services to receive COVID-19 vaccination

Mass Immunizers CMS Policy
(Everyone is a mass immunizer!)

CMS COVID-19 Vaccine Part B Billing Policy
- **Current Medicare Providers:** If you're enrolled in Medicare under institutional or non-institutional provider types, you don't need to take any action to administer and bill the COVID-19 shot.
- **New Medicare Providers:** can enroll as a "Medicare mass immunizers" through an expedited 24-hour process.
- **Mass Immunization Clinics**: Section 4 of the Form CMS-855, the supplier need **NOT** list each off-site location (e.g., county fair, shopping mall). It need only list its base of operation:
  - NPI and TIN of location of standing orders physician is used as the rendering provider
  - Place of service 60 is indicated in an offsite immunization setting
- **Medicare Part B Billing Change:** Do not bill the Advantage Plan, instead submit all claims to Medicare directly or through Noridian
  - Will need to collect the **Medicare ID# or SS#**. Cannot use Advantage Plan Policy numbers
  - Can submit claim with the administration code only. Do not have to include vaccine code

Groups that are signed up with Medicare that **DO NOT** have to Re-enroll as Mass Immunizers

Part B

Institutional	Non-Institutional
•Hospital •Hospital Outpatient Department •Skilled Nursing Facility (includes Parts A and B)* •Critical Access Hospital •End-Stage Renal Disease Facility •Home Health Agency •Hospice •Comprehensive Outpatient Rehabilitation Facility •Federally Qualified Health Center** •Rural Health Clinic*** •Indian Health Services Facility	•Physician •Non-Physician •Clinic/Group Practice •Pharmacy (enrolled as Part B) •Mass immunizers

Provider types that don't allow billing for administering vaccines **DO** need to sign up as Mass Immunizers

Institutional	Non-Institutional	DME
•Outpatient Physical Therapy •Occupational Therapy •Speech Pathology Services •Histocompatibility Laboratory •Religious Non-Medical Health Care Institution	•Independent Clinical Laboratory •Ambulance Service Supplier •Independent Diagnostic Testing Facility •Intensive Cardiac Rehabilitation Supplier •Mammography Center •Medicare Diabetes Prevention Program Suppliers •Portable X-ray Supplier •Radiation Therapy Center •Opioid Treatment Program •Organ Procurement Organization •Home Infusion Therapy Supplier	•Durable Medical Equipment Supplier •Pharmacy (enrolled as DME supplier

https://www.cms.gov/medicare/covid-19/enrollment-administering-covid-19-vaccine-shots

Uninsured Patients and the Vaccine Admin Fee:

HRSA partnered with UHC's Optum Pay for uninsured covid testing, treatment claims. Vaccine administration fee was recently added.

All providers must register with Optum to submit uninsured claims for the administration fee only.

Temporary patient IDs need to be generated prior to claim submission and all claims should be final with no corrections. Will need a **DL# or SS#** for all uninsured patient claims Claim requirements

For patients that you can't find insurance coverage send claims to Optum and they often give you insurance information.

HRSA
COVID-19 Claims Reimbursement
to Health Care Providers and Facilities for Testing and Treatment of the Uninsured

Potential Changes in Workflow

Scan NDC from Box for registry reconciliation

All Federal Vaccine:

1. Scan NCD from box not from vial or syringe for inventory reporting. (NDC Qualifier N4)

2. Document in record as <u>Federally supplied</u> for inventory reconciliation and billing

3. Bill the admin fee to insurance or HRSA for uninsured. Vaccine is supplied at no cost.

4. Bill CMS Admin Fee Rate to Public and Private health plans. $16.94 & $28.39, $40 after 3/15/2021

5. Bill under physician or global standing orders-   Place of Service code 60 - offsite immunization clinic

Pandemic Vaccine Change in Workflow

1. Do not need SL Modifier on vaccine for most plans - Amount $.00/$.01
2. Medicare not requiring vaccine code on claims just admin code
3. Admin code - Vaccine and Dose specific
   0001A, 0002A, 0011A, 0012A
4. Admin fee – Dose specific $16.94, $28.39 or $40 after 03/15/2021
5. Rendering provider is tied to Standing orders physician location
6. Place of Service is the offsite location

Typical ICD-10 Code indicating Encounter for Immunizations

Place of Service for offsite Immunization Clinic - 60

Vaccine and admin charges. $01 or $.00 for vaccine and 1st/2nd dose CMS rate for admin fee

Vaccine Presentation NDC from carton

Vaccine & admin code of dose 1 or 2. SL modifier to indicate Federally supplied **may not be needed**. Check with plan

Rendering provider is the base of operation clinic location of standing order provider

POINT

OF

Billing

DISPENSING

① Location code 60 if offsite clinic

You don't need additional license

② Standing Orders written by clinic or provider from base of operation = Rendering Provider

③ Bill Vaccine $0.00 Administration $40.00

AZ IMMUNIZATION DATA/INVENTORY EXCHANGE

- CDC sends ADHS # of doses for AZ.
- ADHS divides by county population, gives allocation to Counties.
- County allocates doses to providers/partners by tier group.
- ADHS links doses in ASIIS to provider account.
- Providers accept doses in ASIIS.
- Doses shipped to location by CDC distributor.
- Doses administered by provider.
- Provider reports patient record to ASIIS and vaccine inventory adjusted.
- Provider reports doses given and appointments to vaccine Finder, daily ADHS survey & county end of day.
- Provider bills health plan for admin fee.
- ADHS runs doses administered report sends to county and to track allocation.
- ASIIS reports inventory to CDC.
Dose inventory to CDC and vaccine shipped
Adult/Specialty EMRs connect to HIE

Hospital EMRs connect to HIE

Pharmacy HIE/ASIIS by middle Interface. ~2,000 connected

Traditional Vaccine Providers: Pediatrics, FQHCs and LHD use data entry & 500 locations EMR exchanges. IHS HL7/data entry

WHERE DO YOU REPORT DOSES?

Offices   Hospitals

Pharmacy, FQHCs and LHD

Local allocations: Daily Reporting

Optional: ADHS Vaccine Management System

Are you Eligible? Eligibility based on age, profession, and location
azhealth.gov/covid19vaccines

ADHS VMS: Patient registration portal. Report doses given in clinic. Doses reported to ASIIS

CDC · ASIIS · VaccineFinder · ARIZONA DEPARTMENT OF HEALTH SERVICES · AZ Local County Health Departments

State Immunization Registry: Daily reporting of patient record that links to ASIIS inventory management. Use EMR HL7 connection or manual data entry. ASIIS reports detail inventory to CDC.

Vaccine Finder: Federal Daily report number of doses given & on-hand. Both local and Federal allocations.

Emailed ADHS Survey: Daily reporting number of doses given, number of appointments coming up and percent expected to use this week.

Your County Health Department System: Daily reporting of number of doses given.

Federal Allocations: All IHS some FQHC & Pharmacy

VaccineFinder · Tiberius

Tiberius: Daily report number of doses given & patient data for <u>some</u> pharmacies, FQHCs and IHS. Only for Federal doses. Have to report locally allocated to state and county.

Vaccine Finder: Federal Daily report number of doses given & on-hand. Federal and local allocations.

INDIAN HEALTH SERVICE · PHS · 1955
