

COVID-19 Vaccine: What to consider?

1. Are you longing for the end of the pandemic? Yes or No
2. Are you involved in promoting good and healthy community? Yes or No
3. Are you fortifying your safety at home? Yes or No
4. Are you encouraged to maintain or to improve your well-being? Yes or No

If you answer YES to any of the questions above, consider receiving the vaccine.

To help you decide, a Likert-type scale, using the agreement level strategy, would be your aid. Please select the number below that best describes how you feel about COVID-19 vaccine.

	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
--	----------------	-------	---------	----------	-------------------

I consider the health benefits of the vaccine.	1	2	3	4	5
---	----------	----------	----------	----------	----------

<https://www.mayoclinic.org/diseases-conditions/coronavirus/in-depth/coronavirus-vaccine/art-20484859#vaccine-benefits>
Prevent the COVID-19 virus from spreading and replicating, which allows it to mutate and possibly become more resistant to vaccines.

I have a reason to receive the vaccine.	1	2	3	4	5

<https://www.worldometers.info/coronavirus/> Last updated: February 13, 2021, 18:42 GMT, 219 countries and territories around the world have reported a total of 108,904,983 confirmed cases of coronavirus COVID-19 and 2,398,339 deaths.

I am aware that my health will affect the health of my family and the community.	1	2	3	4	5
---	----------	----------	----------	----------	----------

I need to continue wearing mask over my nose and mouth, stay at least 6 feet away from others, often wash my hands with soap and water for at least 20 seconds, or use hand sanitizer with at least 60 % alcohol, even after receiving COVID-19 vaccine.	1	2	3	4	5
---	----------	----------	----------	----------	----------

I will get more information about the vaccine from reliable sources to help answer my questions.	1	2	3	4	5
---	----------	----------	----------	----------	----------

<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/faq.html> , Studies show that COVID-19 vaccines are effective at keeping you from getting COVID-19. Experts also think that getting a COVID-19 vaccine may help keep you from getting seriously ill even if you do get COVID-19. COVID-19 vaccines teach our immune systems how to recognize and fight the virus that causes COVID-19.

I can entrust my health decision based on clinical studies done by experts on this field, who worked diligently to make the vaccines, and distribute the vaccines.	1	2	3	4	5
---	----------	----------	----------	----------	----------

<https://news.arizona.edu/story/uarizona-become-high-capacity-state-vaccination-site> Feb.10,2021, UArizona to Become High-Capacity State Vaccination Site: As a state site, it will eventually be able to operate 24/7 and serve up to 6,000 people per day.

I will read the vaccine's side effects and remind myself, that my body will respond by making antibodies against SARS-CoV-2 virus after receiving the vaccine.	1	2	3	4	5
---	----------	----------	----------	----------	----------

<https://bestlifeonline.com/news-vaccine-side-effects/> During a Jan. 28 interview with MSNBC, chief White House COVID adviser Anthony Fauci, MD, recently name dropped two side effects in particular that he feels should be viewed as a welcome sign that your immune system is responding to your vaccination.

Please consider your cause, your mission, and your role in this global effort to stop the spread of SARS-CoV-2 virus.
Please get your vaccine.

COVID-19 Vaccine: What to consider?
