

Improve outcomes for rural patients with COVID-19

Receive educational support from specialists

Response within 24 hours*

an information resource for: Vaccines, Acute and Long-COVID treatments

Arizona's Provider-to-Provider (P2P)

Warmline is an educational resource for rural providers regarding COVID-19. The P2P warmline is a novel platform, which allows providers to contact specialists and get information about the latest Centers for Disease Control (CDC) guidelines on COVID vaccines, treatment of acute infections, and the latest on Long-COVID care. Within 24 hours, specialists will respond to queries with up-to-date guidance and educational information.
