

ARIZONA DEPARTMENT
OF HEALTH SERVICES

Ensure your residents and staff are up to date with their COVID-19 vaccinations!

This means receiving an updated bivalent booster.

To arrange a free mobile vaccine clinic for your residents and staff, use our form or email healthequity@azdhs.gov. Our vendors will come onsite and can provide in-room vaccination for bed-bound residents. All vaccines are free regardless of insurance status or immigration status, and there is no minimum person requirement to receive mobile vaccinations.

Please note: ADHS staff will not be able to come on site to administer the vaccines; this work is done through our trusted partners.

This statewide program is in collaboration with Arizona Health Care Association (AHCA) and Health Services Advisory Group (HSAG), and is designed to help staff and residents residing in long term care facilities, skilled nursing facilities and assisted living homes stay up-to-date with their COVID-19 vaccinations.

In addition, Health Services Advisory Group ([HSAG](#)), the Medicare Quality Innovation Network-Quality Improvement Organization in AZ is supporting long-term care facilities to increase COVID-19 booster rates among staff and residents.
