

CLOUD AWARDS HOW TO CLEAN UP YOUR DATA TO IMPROVE YOUR RATES

Focus on patients who appear on the “Reminder Recall” list.

- If a dose has already been given, enter it into the patient’s record in ASIIS.
 - Remember, only doses given by **another** provider should be added as “historical”.
 - Doses **you** administer at your practice must be accounted for in ASIIS.

Recall patients who are missing doses to immunize them.

- Enter their immunization dates directly into ASIIS as soon as possible.
- Need reminder/recall postcards? Call TAPI at 602-288-7568 to request some.

Inactivate patients who have moved away or gone to another practice so no longer appear as your patients in ASIIS.

- ONLY inactivate patients for the reasons listed above.
- *DO NOT inactivate **current** patients who are not up to date to temporarily raise your rates. This practice is not considered to be in line with the spirit of the Cloud Awards.*
